

Invitation To The EcoSEC Tour 2010

EcoSEC - Ecological & Economical SEC - Modern GPC/SEC Solutions

EcoSEC - the integrated GPC/SEC system for semi-micro operation, for coupling with light scattering and viscometry and for copolymer analysis convinces through its elaborate design with Dual Flow RI-Detection.

EcoSEC has exclusively been developed for GPC/SEC and allows efficient operation:

Save solvent: GPC in semi-micro operation saves up to 60%, with the WinGPC Software up to further 35% solvent can be saved.

Save time: The Dual Flow technique makes it possible: Stable Base line and no interruption of the analyses by rinsing, purging or flushing the reference cell.

To demonstrate this to you in person **PSS Polymer Standards Service GmbH + Tosoh Bioscience GmbH** cordially invite you to participate in our road show free of charge with the topic:

New Solutions for GPC/SEC and Green Chromatography

Who should attend?

This workshop is important for all scientists who need to characterize polymers, proteins, or biopolymers in solution. It is designed for

- GPC/SEC users: beginners or advanced users alike
- lab managers thinking about implementing GPC/SEC in their lab
- managers looking for new and improved solutions

Objectives

The goal of this road show is to provide you with a strong introduction to understanding new developments in GPC/SEC and how you can organize your lab to achieve highest precision, higher information content and increased sample throughput.

Scheduled Dates and Venues

- March 16 2010 Basel, Switzerland
- April 20 2010 Milano, Italy
- May 17 2010 Paris, France
- October 25 2010 Lyon, France
- June 16 2010 Krakow, Poland
- September 08 2010 Frankfurt, Germany
- October 06 2010 Copenhagen, Denmark
- October 27 2010 Barcelona, Spain

Conditions of Participation

The event is free of charge and includes meals and drinks during the meeting, seminar material and a certificate of participation. If you wish to stay over night at the venue, we are pleased to assist you with the hotel room reservation. The participant is expected to carry the costs of accommodation. Please be sure to register in time, the number of participants is limited.

Pre-Registration

Please check the event you are interested in and add your name and your contact information below. We will then contact you with the program and detailed information.

Name:..... Title:..... Company:.....
 Street:..... ZIP-City:.....
 Email:..... Phone:.....
